Illinois Department of Commerce and Economic Opportunity

October 1, 2012

Dear Members of the General Assembly:

The enclosed information fulfills the statutory directive that the Department of Commerce and Economic Opportunity report annually to the members of the Illinois General Assembly on the status of the Illinois Enterprise Zone Program.

The purpose of the Enterprise Zone Program is to stimulate economic growth and neighborhood revitalization at the local level through state and local tax incentives, regulatory relief and improved government services.

Since the Enterprise Zone Act was passed by the General Assembly in 1982, the department has designated 97 enterprise zones throughout the state. During Fiscal Year 2012, local enterprise zone administrators reported investments of over \$2.46 billion that resulted in the creation of 11,194 jobs and the retention of 16,496 jobs.

Although other factors are undoubtedly involved, enterprise zone designation is a highly important determinant of a business's decision to locate or expand in Illinois. Indeed, we believe that the Enterprise Zone Program is one of the state's most successful economic development tools.

I trust that you will find this 2012 Enterprise Zone Annual Report informative and useful.

Sincerely,

A handwritten signature in black ink, appearing to read "David H. Vaught", written over a horizontal line.

David Vaught

FISCAL YEAR 2012

A N N U A L R E P O R T

The Illinois Enterprise Zone Act was signed into law December 7, 1982. The purpose of the Act is to stimulate economic growth and neighborhood revitalization at the local level. This is accomplished through state and local tax incentives, regulatory relief and improved government services.

In accordance with the Act, the Department of Commerce and Economic Opportunity (DCEO) was authorized to designate 88 enterprise zones statewide from 1983 to 1991 and 1 additional enterprise zone in 2006. As of July 1, 2012, the department has designated all 89 of these authorized zones. Eight additional enterprise zones have been certified under the auspices of the Quad Cities Regional Economic Development Authority Act, the Southwestern Illinois Economic Development Authority Act, the Upper Illinois River Valley Development Authority Act, the Western Illinois Economic Development Authority Act, and under the auspices of 20 ILCS 655/5.3 (e), relating to closed military bases.

The following report identifies the guidelines, accomplishments and statistical information of the Illinois Enterprise Zone Program.

Enterprise Zone Benefits – *The Use of Incentives*

STATE INCENTIVES

The Illinois Enterprise Zone Program offers numerous state incentives to encourage companies to locate or expand in enterprise zones. Currently, the following incentives are available:

Tax Exemptions

Sales Tax Exemption — A 6.25 percent state sales tax exemption is permitted on building materials to be incorporated into real estate located within an enterprise zone established by a county or municipality under the Illinois Enterprise Zone Act. Receipts for materials used for remodeling, rehabilitation or new construction may be deducted from such sales when calculating the tax imposed by this Act. For purposes of this Section, “qualified sale” means a sale of building materials that will be incorporated into real estate as part of a building project for which a Certificate of Eligibility for Sales Tax Exemption has been issued by the administrator of the enterprise zone in which the building project is located. To document the exemption allowed under this Section, the retailer must obtain from the purchaser a copy of the Certificate of Eligibility for Sales Tax Exemption issued by the administrator of the enterprise zone into which the building materials will be incorporated.

Enterprise Zone Machinery and Equipment/ Pollution Control Facilities Sales Tax Exemption

— A 6.25 percent state sales tax exemption is available on purchases of tangible personal property to be used or consumed in the manufacturing or assembly process or in the operation of a pollution control facility within an enterprise zone. Eligibility for this exemption is contingent upon a

business making a \$5 million investment that causes the creation of 200 full-time equivalent jobs in Illinois, or an investment of \$40 million that causes the retention of 2,000 full-time jobs in Illinois, or an investment of \$40 million that causes the retention of at least 90% of the jobs in place on the date on which the exemption is granted for the duration of the exemption. The majority of the jobs created or retained must be located in the enterprise zone in which the investment occurs. A business must make application to and be certified by DCEO for this exemption. DCEO also has the authority to determine the length of the exemption. This exemption shall not be allowed beyond the term of the certified Enterprise Zone.

The exemption is applicable to the following:

- Hand tools used to maintain, repair or operate machinery and equipment;
- Abrasives, acids, polishing compounds or lubricants used or consumed in the manufacturing or assembly process;
- Coolants, adhesives, solvents or cleaning compounds used to maintain, repair or operate machinery and equipment;
- Manufacturing fuels;
- Protective clothing and safety equipment; and
- Fuels, chemicals and catalysts used in the operation of pollution control facilities.

Enterprise Zone Utility Tax Exemption — A state utility tax exemption on gas, electricity and the Illinois Commerce Commission’s administrative charge and telecommunication excise tax is avail-

able to businesses located in enterprise zones. Eligibility for this exemption is contingent upon a business making a \$5 million investment that causes the creation of 200 full-time equivalent jobs in Illinois, or an investment of \$175 million that causes the creation of 150 new full-time equivalent jobs in Illinois, or an investment of \$20 million that causes the retention of 1,000 full-time jobs in Illinois. The majority of the jobs created or retained must be located in the enterprise zone in which the investment occurs.

A business must make application to and be certified by DCEO for the state utility tax exemption. DCEO also has the authority to determine the term of the exemption. Local units of government may further exempt their public utility taxes on gas, electricity and water for eligible businesses.

Tax Credits

Enterprise Zone Investment Tax Credit — A state investment tax credit of .5 percent is allowed a taxpayer who invests in qualified property in a zone. Qualified property includes machinery, equipment and buildings. The credit may be carried forward for up to five years. This credit is in addition to the regular .5 percent investment tax credit which is available throughout the state as well as a .5 percent credit for businesses that increase their employment in Illinois by one percent over the preceding year.

LOCAL INCENTIVES

Local governments may provide a variety of local incentives to further encourage economic growth and investment in enterprise zones. The incentives offered are determined by the local governments. The following list is not inclusive but serves as an example of the most common local enterprise zone incentives offered:

- Abatement of property taxes on new improvements;
- Homesteading and shopsteading programs;
- Waiver of business licensing and permit fees;
- Streamlined building code and zoning requirements; and
- Special local financing programs and other resources.

FY'12 Enterprise Zone Statistical Summary *(continued)*

- (1) Certified under the auspices of the Southwestern Illinois Economic Development Authority Act.
- (2) Certified under the auspices of the Upper Illinois River Valley Development Authority Act.
- (3) Certified under the auspices of the Quad Cities Regional Economic Development Authority Act.
- (4) Certified as a closed military base.
- (5) Certified under the auspices of the Western Illinois Economic Development Authority Act.
- (6) Zone statistics comprised of the counties of Bureau and Putnam. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (7) Zone statistics comprised of the counties of Clinton, Marion, Washington and Jefferson. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (8) Zone statistics comprised of the counties of Stephenson and Jo Daviess. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (9) Zone statistics comprised of the counties of LaSalle and Livingston. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (10) Zone statistics comprised of the counties of Whiteside and Carroll. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (11) Zone statistics comprised of data from Madison County.
- (12) Zone statistics comprised of the counties of Carroll and Jo Daviess. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (13) Zone statistics comprised of data from Will County.
- (14) Zone statistics comprised of the counties of Richland and Jasper. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (15) Zone statistics comprised of the counties of LaSalle and Grundy. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (16) Zone statistics comprised of the counties of Lee and Ogle. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (17) Zone statistics comprised of the counties of Adams and Brown. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (18) Zone statistics comprised of the counties of Dewitt, Logan and Sangamon. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (19) Zone statistics comprised of the counties of White and Edwards. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (20) Zone statistics comprised of the counties of DeKalb and LaSalle. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.
- (21) Zone statistics comprised of the counties of Marshall and Stark. Population is a compilation of these counties. Per Capita Income and Unemployment is an average of these counties.

Statewide Statistical Summary

The Enterprise Zone Program is a state and local partnership. It creates a coalition of state and local government, business, labor and community groups to encourage economic growth in the enterprise zones.

The success of the zone depends, in a large part, on local commitment. Supervisory responsibility for administration of the program rests with DCEO, but determination of specific economic development objectives, selection of incentives and day-to-day administration of the enterprise zone is the ultimate responsibility of the participating community. The following statistics are a reflection of the communities' successes in administering their local programs.

For the 96 zones operational as of the twenty-ninth year, the following statistics document development related activity:*

Jobs created by businesses located in enterprise zones

Jobs retained by businesses located in enterprise zones

Number of businesses investing in enterprise zones

Dollars invested by companies in enterprise zones

* The economic activity described in this report is based on data submitted to DCEO by local enterprise zone administrators. The data is collected on a quarterly basis. The data only reflects economic activity that occurred after the issuance of a building permit or certificate of eligibility obtained from the local zone administrator. Investments not requiring a building permit or certificate of eligibility are not reported in this publication. DCEO aggregated the data to reflect annual economic activity occurring in each zone for FY'12. Multiple investments by an individual firm occurring throughout a fiscal year may, in some cases, retain the same jobs.
